

Residential roofer, Central Florida: 31 more booked jobs in 90 days

Three crews, retail and storm work, around \$2.4M a year. The owner was answering the phone from the roof, and estimates were going out and never coming back.

+31

booked jobs in the first 90 days

94%

of inbound calls answered, up from 61%

7 h

a week back to the owner

• Where the money was leaking

- Calls hit voicemail while the crews were on roofs. Nobody called back the same day.
- Estimates went out and sat there. Follow-up happened when he remembered.
- Storm leads from paid ads got a call back the next afternoon, at \$60 a lead.

• What we built

Call coverage, day and night

Every call answered, qualified, booked on the calendar.

Follow-up until yes or no

Open estimates chased automatically. Old customers called back.

Back office on autopilot

Invoices, review requests, reminders, reports.

• Before and after

	BEFORE	AFTER
The phone	The owner, from the roof. Voicemail after 5 pm.	• Answered in seconds, day and night. Estimate booked on the calendar.
Estimates	Sent, then forgotten. Followed up when he remembered.	• Chased automatically until a yes or a real no.
Paid leads	Form submissions answered the next afternoon.	• Called back within minutes, before the next roofer.
Evenings	Invoices, review requests and paperwork after dinner.	• Running in the background. Evenings are his again.

"I stopped losing jobs to whoever picked up first."
